

Project Planning Phase

Planning Logic

Date	15-07-2026
Team ID	SWTID-2026-1581
Project Name	Credit Card Approval Prediction System
Maximum Marks	2 Marks

A **Sprint** is a fixed period or duration in which a team works to complete a set of tasks.

An **Epic** is a big task or project that is too large to complete in one sprint. It is broken down into smaller tasks (stories) that can be completed over multiple sprints.

A **Story** is a small task. It is part of an Epic.

A **Story Point** is a number that represents how much effort a story takes to complete (usually in the form of the Fibonacci series).

- Very Easy task
- Normal task
- Moderate task
- Difficult task

Story Point - 5 (1, 2, 3, 5)

Sprint 1

Data Collection (Epic 1)

Gathering applicant & credit-history data (USN1) 2

Loading application_record.csv and credit_record.csv (USN2) 1

Data Preparation (Epic 2)

Handling missing values in income & employment fields (USN3) 3

Feature engineering: age, years employed, family size (USN4) 3

Encoding categorical fields & handling data inconsistency (USN5) 3

Total Story Points in Sprint 1 = $2+1+3+3+3 = 12$

Sprint 2

Data Visualization (Epic 3)

Bar chart: applicant status distribution (USN6) 2

Pie chart: gender / education split (USN7) 2

Correlation heatmap of features (USN8) 2

Confusion matrix & model comparison chart (USN9) 3

Model Building (Epic 4)

Train Logistic Regression, Decision Tree, Random Forest & XGBoost (USN10) 5

Compare models & select the best by F1-score (USN11) 3

Total Story Points in Sprint 2 = $2+2+2+3+5+3 = 17$

Sprint 3

Web Application Development (Epic 5)

Build Flask application form UI (USN12) 3

Build /predict route & integrate trained model (USN13) 5

Deployment (Epic 6)

Deploy application on Render with Procfile (USN14) 3

End-to-end testing & bug fixes (USN15) 2

Total Story Points in Sprint 3 = 3+5+3+2 = 13

Total Story Points

Sprint 1 = 12

Sprint 2 = 17

Sprint 3 = 13

Velocity = Total Story Points Completed / Number of Sprints

Total Story Points = 12 + 17 + 13 = 42

Number of Sprints = 3

Velocity = 42 / 3

= 14 (Story Points per Sprint)

My team's velocity is 14 Story Points per Sprint.
